SITES RECORD

<u>Site Number</u>	<u>Eastings</u>	<u>Northings</u>	<u>Key Word</u>	<u>Dimensions (L x W in Metres)</u>	<u>Orientation</u>	<u>Notes</u>
SPY1	122774	894892	Burials?			3 (or 4?) standing stones, said locally to be shipwreck graves. Possibly others nearby. Geophysical survey (resistivity) showed no obvious anomalies around stones
SPY2	122801	894796	Trackway			Leading from shore. Associated quayside
SPY3	122786	894787	Lobster Pond			Lobster pond with another on the other side. See also SPY60
SPY4	122574	894885	Dyke		E/W	Start of ditch and dyke enclosing field system. At W end of wall, it is one course /0.4m high. Stone faced on S side. Wall continues E along top of foreshore as an earth bank (NG22595 94871, NG22601 94858) with ditch on S side, up to 0.6m deep. Field system of lazybeds to S of dyke. Upstanding dyke ends at NG22657 94836, but ditch continues to E limit of field system at NG22707 94757. Traces of N/S fence separate field system from rough grazings beyond, terminating at NG22480 94575
SPY5	122636	894855	Structure	3 x 3		Possible turf building. No stone present, but N wall up to 0.30m high
SPY6	122756	894722	Quay+Slip way	8.5 x 4.5		Drystone in construction. Quay becomes narrower at E end
SPY7	122838	894689	Shelter	1.7 x 0.7		Rock shelter. Large natural boulder with hollow underneath and slight walling. Measurements refer to internal compartment size which stands at 1.1m high
SPY8	122757	894614	Slipway	30-40 x 10		Possibly natural. Measurements are approximate
SPY9	122741	894802	Lazybeds			Area of cultivation 9m deep. Continues to NG22701 94583
SPY10	122550	894481	Burials?	8.5 x 4	NW-SE	Low grassy mound in natural defile, believed locally to be site of shipwreck burials. Oval in shape and 0.3m high
SPY11	122568	894476	Wall+Slip way	10.5m in length		Remains of rough drystone wall. Encloses east end of defile. Traces of walling to west end of area at NG22555 94475, which measure 2m in length. Has been subsequently fenced. Apparently, pre-dating grassy mound at point where defile widens out. Slipway at W end of defile measuring approximately 12m wide and 100m long
SPY12	122558	894474	Shelter	1.5 x 1.25		Small square stone structure against S side of defile. Mostly collapsed. Doorway in N wall

SPY13	122471	894772	Structure			Blackhouse. Predecessor to present croft house with SPY14+15. Has doorway and at least one window in W wall. S half retained as shed with inserted drystone wall
SPY14	122461	89477?	Structure			Blackhouse outbuilding. Possibly a byre with drainage ditch to the west
SPY15	122449	894777	Mast			Metal mast from Gold Gulf Star, washed ashore in 1997
SPY16	122356	894766	Shelter			Natural shelter
SPY17	122305	894663	Platform	20m in length		Large mound with small stones embedded in W side and platform to W
SPY18	122188	894786	Noost	7.5 x 4		Large, stone-lined boat noost. Recessed rectangular area in centre
SPY19	122170	894774	Quay	19.5 x 2.5		Drystone quay edged with large boulders up to 1m high. Seabed area adjoining has been cleared of stones
SPY20	121947	894870	Steps	1.5 x 1.35		Drystone steps and walled path. Access to Oir Eilean. Zig zags up slope
SPY21	121941	894936	Peat Cuttings			Peat cuttings next to modern shed
SPY22	122195	895114	Stone Setting			Sub-peat stone setting. Only prehistoric site? Comprises of 5 boulders forming a crescent 6.7m long. Largest stone 0.85 x 0.8m, smallest 0.25 x 0.25m
SPY23	122435	894875	Slipway	4m wide	NW-SE	Cleared slipway with traces of quays either side. Path access to settlement
SPY24	122448	894888	Quay	2 x 4		Modern concrete access to shore leading to quay. Overlies earlier version.
SPY25	122390	894923	Quayside			Earlier line of road/quayside
SPY26	122398	894921	Noost	10m in length		Boat noost at end of slipway which is still in use. Edge built up with stone and tyres
SPY27	122418	894935	Scattered Artefacts			Scattered marine artefacts washed up on rocky shore
SPY28	122395	894964	Structure	3.5 x 2.9	NW-SE	Small rectangular drystone building close to causeway. Built on steep slope on the high-water mark. Wall thickness 0.75m. Front wall up to 1.6m in height
SPY29	122411	894967	Causeway	Maximum width 2.7m		Causeway to small islet. Islet has extensive peat cutting and lazybeds on east side. Only visible at very low tide
SPY30	122389	895048	Islet			Tidal islet with lazybeds, upturned boats, old lobster pots and pegs for tying up
SPY31	122348	895095	Oar			Remains of oar
SPY32	122327	895154	Jetty			Double slipway used by two boats with central jetty. Tying up points along the shore
SPY33	122387	895178	Noost	15 x 2.4		Boat noost and slipway ahead of inlet with stone quay and mooring ropes
SPY34	122408	895190	Quay	3 x 0.9		Wide double quay at heart of inlet with stone jetty. Wall height 0.90m. Quay face up to 0.95m. Several wooden masts in vicinity

SPY35	122718	895008	Structure	10.9 x 4.35	E/W	Blackhouse with one gable and fireplace in W gable. One doorway with lintel and 2 windows in S wall. Wall height 1.8m and wall thickness 1m. Adjacent byre or storehouse measuring 5 x 3.4m internally. No windows but door located in S wall. Wall thickness 1.4m. Stone path leads out from doorway into well preserved jetty which measure 2m wide and 1.1m in height and tapers towards the sea. Cleared area on either side
SPY36	123045	895140	Structure	6.6 x 3.4	NW-SE	Small blackhouse close to watercourse. Doorway and one window in NE wall. No evidence of fireplace. Wall thickness 1.45m and wall height 1.45m. At NW end is footing for small annex, a further 2.2m long. The whole building sits inside the footprint for an older, larger house. Larger blackhouse lies adjacent and is E/W aligned. W end buried under modern road, widening above. 8 x 4.3m internally and wall height 1.35m
SPY37	123007	895162	Quay			Small quay associated with houses. Located 8m to west of SPY36. Quay faces with small haven enclosed by two small stone jetties, one heightened with stonework encased in wire netting. Only visible at low tide
SPY38	123035	895124	Wall			Stone wall. Wall height 1 course. Runs from shore towards SPY36
SPY39	122973	895067	Jetty	4 x 2.5		Remains of small drystone jetty. Projects from shore. Still used for mooring. Another adjacent
SPY40	122956	895035	Quay	5 x 3.5		Remains of quayside which is poorly preserved. Parallel to shore
SPY41	122891	894995	Quay	3.5 x 3		Remains of quayside parallel to shore. Edged with boulders but stone surface of quay has eroded
SPY42	122840	894920	Quay		NW-SE	Remains of double quay with central stone jetty at head of inlet. Poorly preserved. Two slipways separated by tapered stone jetty, 2m wide towards end. NE slipway 2.2m wide, c. 2.5m long with traces of stone quay face 1.8m wide on NE side. SW slipway of similar dimensions. Immediately adjacent to SPY43
SPY43	122803	894881	Slipway	3.5m wide	N/S	Single slipway with stone quayside. Better preserved stone quay face on W side up to 0.8m high. Two old upturned boats measuring 4.5m and 4.9m in length
SPY44	122727	894914	Quay	15 x 3.5		Parallel to shore. Similar to SPY41
SPY45	122727	894914	Noost?			Natural boat shaped recess
SPY46			Quay	6-7m wide		Large double quay with central jetty. Small slipway still in use and is 7m wide. Larger one has rusting wreck and is 15m wide. Situated immediately opposite SPY42+43
SPY47	122902	895084	Quay	1.3m wide		Quayside and secondary jetty. 1.4m in height. Slipway to NE side of jetty measuring 2.8m wide. Traces of badly preserved stone facing on other side
SPY48	122799	895029	Jetty	10 x 2.6	NW-SE	Remains of tapered drystone jetty. 1m in height with cleared areas of either side

SPY49	122746	895008	Structure	12.3 x 4.5	N/S	Large blackhouse. Doorway and three windows in E wall. Two gable end fireplaces. Walls survive to eaves level, 1.7m high. Wall thickness 1.05m. Extending from rear of house, a stone-built path opens out to a quay measuring 10.3m wide and 4-5m long
SPY50			Lazybeds			Adjacent to structure SPY49
SPY51	122624	894957	Quay	7m wide		Quay, parallel to the shore. Wall height 3-4 courses/1-1.5m. Traces of 2 jetties which are badly collapsed
SPY52	122798	895098	Structure	2 x 0.7		Remains of small building underneath modern road. Thin stone walls
SPY53	121960	895189	Stone Feature	1.5 X 1	E/W	Area of exposed stones. Possible post socket 1m west. Exposed area contains remains of a metal pulley
SPY54	121941	895153	Stone Feature	0.9 x 0.6		Cut feature. Stone faced. Exposure in the shore line
SPY55	121948	895157	Stone Feature	3 x 2		Rectangular area of stones with grass overlay and set timber.
SPY56	121992	895177	Marine Artefacts			Metal hooks and pulley attached to rocks
SPY57	122655	895001	Stone Feature	8 x 6		Stone faced on south side. Adjacent to SPY58
SPY58	122659	894992	Quay	6 x 2		Stone faced. Maximum height 1.4m
SPY59	122633	894968	Platform	7 x 2		Reveted stone platform
SPY60	122602	894945	Lobster Pond	10 x 4		Long walls 1m thick. End walls 1.5m thick. Stone faced on inside. 1.5m in height. See SPY3
SPY61	122523	895049	Slipway	14 x 2		Natural rock on landward side
SPY62	122542	895076	Dyke	1m wide		Boundary dyke extending to NG22513 95076. Stone and turf construction. 1m high and 1m wide
SPY63	122517	895051	Enclosure	4 x 2		Formed by reveted stones. Possible continuation of boundary dyke. Maximum height 0.9m
SPY64	122513	895070	Quay+Noost			Stone quay 2 x 14m, height 1.2m. Noost 7 x 8m, maximum depth 1m
SPY65	122502	895111	Structure	13 x 6		Structural remains, mostly grass covered
SPY66	122523	895118	Structure	8 x 4		Structural remains. Surviving height of 1.2m. Partition wall in centre
SPY67	122482	895111	Steps			Concrete steps
SPY68	122324	895529	Slipway	60 x 4		Rocks piled either side to approx height of 1m
SPY69	122252	895623	Quay+Slipway	20 x 7		Adjunct of 4m at seaward end to act as breakwater. Max surviving height 1.5m
SPY70	122146	895602	Quays+Slipways			Pair of adjoining slipways. East slipway 2 x 19 with maximum surviving height of 1m with rough stone facing edge. West slipway 1.5 x 20m and 1m in height
SPY71	122122	895613	Wall	5 x 1.5		60cm in height. Possible causeway
SPY72	122098	895699	Structure	16 x 6		Blackhouse. Structural foundation. Surviving height 1.3m. Uses existing rock material
SPY73	122100	895728	Structure	5 x 4		Height 1.2m. Overgrown and dilapidated
SPY74	123047	894743	Structure	8 x 8		Small collapsed blackhouse. Wall width 1m. Situated in small inlet of Bagh Ceann Na Muice. Nearby area of cultivation 20 x 50m

SPY75	122691	894841	Slipway	8 x 3.5		Slipway with rounded grassy landward end
SPY76	122778	894774	Lobster Pond	9 x 4.5		Drystone construction. South of another lobster pond on other side on inlet. 1m wall width, 1m in height
SPY77	122464	895171	Jetty+Quayside			Drystone construction. Jetty 2 x 16m, Quayside 3 x 81m. 2m in height
SPY78	122467	895187	Structure			Drystone construction. Two rooms measuring 6 x 6m with mortar on inside. Nine courses and 1.5m high. Partition wall to south has annex. Jetty may have extended to building. May have had timber roof as a lot of timber remains within the building. Northern annex is 4 x 6m
SPY79	122471	895206	Structure	10 x 5		Drystone and turf construction. 3 compartments. South compartment re-used as log shed. Wall height is 1m.
SPY80	121850	895973	Structure	8 x 5.5	E/W	Rectangular stone structure with one internal compartment measuring 2 x 3m on south side of building. Wall thickness is 0.80m.
SPY81	121837	895968	Quay+Slipway	14 x 7		Double slipway with quayside wall and anchor points. 3 courses high. Wall thickness 1m
SPY82	121877	895881	Peat Cuttings	15 x 5		
SPY83	121918	895872	Lazybeds	48 x 21	S/SW	Small bridge attached at top of field. Ridge and furrow runs perpendicular to coastline
SPY84	121416	896478	Islet	10 x 2.5		Earthfast wooden post present. Flattened area of stone
SPY85	121356	896483	Slipways	50 x 15		Terminates in three smaller noosts/slipways at north western end. Northern slipway 5m N/S, 21m E/W. Central slipway 4m N/S, 18m E/W. Southern slipway 5m N/S, 20m E/W
SPY86	121369	896400	Quays+Slipways+Noosts			North slipway 4 x 5m on seaward side with stone facing on both sides. Noost with grass overlay above 2m x 5m. Southern slipway 2m wide with L-shaped adjunct measuring 3m x 5m. Jetty, which is still in use, lies between these features and measures 10 x 15m. Metal objects and wooden post for mooring present.
SPY87	121400	896307	Quay?	8 x 1.5		Loosely built of large stones. 0.75m in height. Near clear area measuring 15 x 20m
SPY88	121174	895633	Slipway	20 x 2.5		Natural slipway. Opens out towards the sea and defined by loose stone walling measuring 3m long, standing height 0.60m
SPY89	121149	895679	Quay+Slipway	16 x 3		North side reveted with large stones, approximately 5m in length, riveting loose stones to north to form platform measuring 2 x 5m
SPY90	121105	895749	Quay+Slipways	15 x 3		Double slipway with north one still in use. Earlier slipway now weed covered measures 6 x 13
SPY91	121204	895668	Boat			Bow of seaweed covered boat. Visible 5m above water and rocks
SPY92	121258	895672	Slipway	5 x 3.5		Seaweed covered. Height 0.60m
SPY93	121322	895656	Causeway	11 x 2		Loose wall of lined stones. Height 1m. Built in 2 phases, with the tallest phase being near the water

SPY94	121348	895670	Quay+Slipway	20 x 10		Mostly natural but reveted with stones on south side for 4m to produce quay. Maximum surviving height 0.75m
SPY95	121418	895652	Slipway	15 x 5		Mostly natural but reveted by stones on north side
SPY96	121378	895569	Lobster Pond	12 x 10		Drystone at base and smaller stones and cement on top. Situated between inlet and lagoon. Cement wall built on end measuring approx 20m in length. Internal depth 2.5m
SPY97	121471	895864	Slipway	9.5 x 2.75		Natural channel present behind feature draining into the sea
SPY98	121515	895985	Slipway	21 x 3		Makes use of natural geology
SPY99	121455	896241	Platform	3 x 2		Concrete platform. Possibly for a jetty. Anchor points and ropes also present
SPY100	121230	895773	Structure	8 x 5.5	N/W	Small blackhouse made from large stones. Walls stand to maximum of 3 courses and 0.75m. South wall reveted into hillside and stands 12 courses. Wall thickness 1.5m. Associated features are SPY101, SPY102, SPY103 and modern concrete platform to N/W
SPY101	121214	895768	Slipway	7 x 3.5		Single slipway with possible larger adjacent slipway is inaccessible due to water levels.
SPY102	121205	895778	Structure	4 x 3		Reused stone structure bonded with mortar and modern roof
SPY103	121242	895780	Structure	10 x 5		Larger blackhouse constructed of large stones covered in turf. Wall height 1m and a maximum of 3 courses and wall thickness 1m. Contains internal compartment measuring 1.5 x 2m
SPY104	121254	895768	Slipway+Noost	14 x 3		Slipway with adjoining noost. Noost measures 2 x 2m
SPY105	121328	895543	Lobster Pond	18 x 5	N/S	Drystone and mortar construction. Wall height 2m. Remains of older tank to north measuring 3.5 x 11m. Material from older tank possibly used to construct newer one.
SPY106	121009	895807	Slipway	50 x 20		Natural slipway with wall riveting to SW
SPY107	121220	895956	Structure	9 x 5	S/W	Blackhouse. Wall height 0.75m and a maximum of 4 courses and wall thickness 1m. Area of cultivation to SW.
SPY108	121206	895920	Enclosure	14 x 11		Turf lined enclosure
SPY109	121257	896169	Slipway+Noost+Wreck	25 x 5		Stone lined slipway and noost with accompanying wreck. Wreck measures approximately 16m. The boat was named Silver Hope and was a prawn and creel fishing vessel. It was owned by "The Welsh Man". The vessel was beached 28 years ago after it became stuck on a reef and was subsequently plundered by the local people.
SPY110	121407	896469	Slipway	14 x 10		Stone built slipway with modern concrete layer on top
SPY111	121050	896421	Slipway	16 x 15		Natural slipway. Lines of rocks to south measuring 10m in length and 0.35m in height
SPY112	121013	896603	Structure	12 x 5	W	Blackhouse. Wall thickness 1.5m and maximum surviving height 1m.

SPY113	121001	896605	Slipway	4 x 2		Faced slipway. Line of stones measuring 10m in length to the south
SPY114	120882	897000	Slipway	30 x 15		Natural slipway with stone facing. Hidden under seaweed
SPY115	120946	897002	Slipway	10 x 15		Linear feature which clearly defined slipway. Maximum surviving height of less than 0.60m. Slipway to west and large boulder in centre.
SPY116	121090	897018	Archway	8 x 4		Concrete foundations with archway to N/W. Archway is under 2m in height and has metal skeleton. Steps leading downwards with wall at base, perpendicular to the steps and measuring 26m in length.
SPY117	121158	896958	Jetty	9 x 1.5		Stone jetty with standing height of 0.90m. Adjacent stone platform to west reveted into hillside with stone steps leading to top of cliff
SPY118	121214	896905	Jetty	14 x 1.5		Stone jetty constructed from large boulders and standing to 3 courses (1.5m) high
SPY119	121722	896800	Wreck	20 x 5		Shipwreck with cabin and boiler room surviving. Shipwreck "Pisces"
SPY120	121770	896787	Ramp	5 x 2		Crude, stone built ramp leading down towards the sea
SPY121	121612	896832	Jetty	8 x 1.2		Stone built jetty, reaching maximum height of 0.60m
SPY122	121552	897924	Slipway	15 x 5		Two lines of stones forming slipway. Coordinates are approximate due to inaccessibility
SPY123	121506	897115	Quay	3 x 2		Quay standing to maximum height of 0.75m
SPY124	121546	896921	Jetty	14 x 2		Stone construction at base with concrete on top. Stands to maximum of 0.75m in height
SPY125	121301	897434	Slipway	15 x 4		Natural slipway. Wall thickness 1m
SPY126	120901	896966	Structure	7 x 5		Blackhouse with only turf remaining. Stones likely to have been removed for building elsewhere. Possible stream wall reveted into hillside to south and a modern fish farm/pier is also present. Concrete plinth present to north of site, which possibly once formed part of a jetty
SPY127	121428	896730	Quay	20 x 2.5		Constructed from stone and mortar topped with concrete. To west, stone steps overgrown with turf lead down from road
SPY128	121381	896873	Jetty	11 x 2		Drystone construction. Most of stones have been removed, possibly to construct wall on opposite side of harbour
SPY129	121352	896691	Wreck	Unknown width x 20		Wrecked boat with engine and partial hull remaining.
SPY130	121288	896788	Structure	16 x 8		Wooden dilapidated fishing shed. Constructed from timber and corrugated iron with a corrugated iron roof. Currently used for storing lobster pots, nets and trays. Stone wall lies to south of building, measuring in 0.5m x 2m. Anchor points set in concrete present to east. Fishing debris present in vicinity. Corrugated iron annex to north of structure, measuring 2m x 4m

SPY131	121273	896830	Platform	7 x 4		Reveted platform. Possible unloading platform and working area, located to north of SPY130. Metal ladder also present in vicinity. See photographs for SPY130
SPY132	121465	896799	Slipway	15 x 13		Natural slipway
SPY133	121505	896801	Jetty	4 x 1.5		Constructed from stone and concrete. Probably modern in date
SPY134	121494	896818	Quay			L-shaped quay. N/S axis 2m wide x 7m in length, E/W axis 2m wide x 6m in length. Anchor points present
SPY135	121486	896823	Slipway	10 x 5		
SPY136	121486	896868	Quay	15 x 3.5		Constructed from stone and mortar. Part of quayside is raised and measures 3.5m wide x 9m in length.
SPY137	121843	896795	Steps	4 x 2.5		Constructed from stone with concrete on top. Possibly the beginning of a jetty. reveted walkway leads off around the bay
SPY138	121768	896858	Wall	8 x 2.5		Possible breaker wall
SPY139	121715	896872	Quay	36 x 25		Quay at head of natural inlet used to shelter boats. Wall at western end constructed from drystone and has further wall reveted to west, measuring 2m in width x 5m in length. Noost present at NE end
SPY140	121538	897193	Wreck	20 x 4.5		Wreck of boat.
SPY141	121519	897186	Quay	6 x 1.5		Stone quay
SPY142	121488	897172	Boat			Concrete boat called the Cretetree
SPY143	122241	897022	Slipway	20 x 10		Natural slipway with large boulders which have been moved to create semi-formal edges
SPY144	122482	897007	Structure	10 x 5		Stone and turf structure. Wall height 0.75m and wall thickness 1m. Linked to bay (SPY145)
SPY145	122485	897042	Slipway	80m in width		Bay used as a slipway defined by linear stones. South end has more formal slipway measuring 4.5m wide and 15m in length along the cliffside
SPY146	124665	894794	Quay	26 x 19		Modern concrete overlying earlier stone quayside. Metal winch also present. Located in the bay to the west of the Eilean Glas lighthouse
SPY147	123737	896549	Lazybeds	20 x 10		Area of cultivation situated within a small cove
SPY148	124455	895578	Structure	3 x 2		Structure overlaid with turf. Located on W side of natural slipway. Possible bothy
